| Measure, Appointment or Topic: | SB1153 |

Members of the Committeem

I Urge you to oppose this bill.

Due to the aftermath of the Ground Water Allocation rulemaking essentially making new ground water rights unobtainable, Transfers is the only tool water right users can use to fullfill these needs. This would essentially shut down transfers as well.

Many Water Well Professionals have invested hundred's of thousands of dollars and even over 1 million in some cases to drill larger diameter wells to supply farmers and municipalities the well water that they need. Now we as an industry will suffer even more now if this bill goes through, including the people that need this water will suffer even more!

Please vote no on this bill.

Blessings,

CJ Nugent-Nugent Drilling Company
