Measure, Appointment or Topic: HB3800

I am writing in opposition to HB3800.

This bill mandates the creation of a groundwater advisory committee, however, it fails to ensure that affected farmers, landowners, and businesses, or experts, will have a meaningful roll in shaping water policy decisions.

This seems to be to be leading directly to what was overturned recently in tge Supreme Court with the Chevron Deference decision.

I urge you to vote no on HB3800
