

SB 712: A steady increase to property MAV

Senate Finance and Revenue – Jody Wiser – March 26, 2025

Senators, we fully support SB 712. It resolves a problem with our property tax system, one you can make without a vote of the people, and one that in fairness you should address.

We are so appreciative that the bill has brought the issue to your attention, and hope that you will act and move this bill forward.

There are many issues of fairness and our property tax system that are difficult to Address. This is one that you can take action on.

Please move positively on SB 712.

We read the bills and follow the money
