

Submitter: George Johnston

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB301

My family has used the Newberg Pool for approximately 50 years. We had a small boat when first married. When are children were 5 and 7 we upgraded boats for children to learn to ski and wake board. We were on the river doing this at least 3 or 4 days a week in the summer . What a great family activity. We have enjoyed this with our grand children now. They all have there own ski , life jacket, etc. The river has been the center of so many hours enjoying activities and our family. Please help us be able to spend time there again.
