Measure, Appointment or Topic:

SJR1

This bill would be an answer to my prayers. For years I have watched my property taxes go up to the point that I have to consider selling the only home I have ever known in Oregon. I raised my family in this home and it should be where I am able to enjoy my remaining years. Living on Social Security alone, 90% of my personal income is taken up by property taxes. Oregon is forcing the elderly out of their homes. It should not be like this. It's only humane to put a cap on property taxes for those elderly living off of Social Security. Having to deplete my savings just to pay bills is detrimental at this point in my life. Health issues are now a concern and I need my savings to take care of myself.

Thank you,
Martha Foster
