Committee: Senate Committee On Health Care

Measure, Appointment or Topic: SB1174

We need a dual licensing standard that deciphers difference between a dietitian and a nutritionist to allow each practitioner to practice at level of competence. We need a very specific criteria to separate these two practitioners and the education level, scope of practice and training. It's a disservice to the public and puts public at risk of harm to allow a practitioner to practice beyond their level of competence.
