

Submitter: Ryan Hebert

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB243

My name is Ryan Hebert and I am a veteran of the Marine Corps. I am opposed to excessive laws being made just to hinder the rights of Oregonians given by the constitution. Making new bills to further make the process of obtaining a firearm is an excessive abuse of power. It only hurts and negatively impacts lawful citizens. Criminals will still obtain firearms through the black market which will only get bigger with more firearm laws. It's a proven fact as well. The states with the most firearm laws, have the most firearm crime. A federal background check is enough to obtain a firearm if approved. Extra local people just slow the process down in hopes that the person applying will just give up and go away. Oregonians won't stand for this. It's a harsh punishment to lawful citizens. Instead of new firearm laws, we need harsh punishment on Criminals who break the law. That's how you fix it. Punish the Criminals and reward the lawful citizens. I thank you for your time.
