

Submitter: Larry LaMarsh

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB301

I am the Safety Officer for Wasabi Paddling Club. I have witnessed first hand the blatant disregard for safe boating practices by the operators of large wake/wave producing boats. The current rules for the Newberg Pool and the Willamette River in the Portland core area were well developed and need to remain in place in order to provide safe areas for non-motorized river users.

Please vote no on bill 301.

Thank you
