

Submitter: Daniel Lay

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB301

I've lived in Milwaukie and enjoyed recreating on the Willamette River since the late '80s. Now, as a parent, I want my children to experience the same waterway where my family and I grew up waterskiing. The current regulations are unreasonable and make no sense. I support the measure because it applies common sense, unlike the arbitrary restrictions we currently face.

Please reopen the Willamette River for everyone to enjoy.
