Please, no more new taxes! As a small business owner in Oregon, we are already beset with more taxes than most states. Businesses have been hurt by Oregon's seeming anti-business positions, and are closing or leaving Oregon for more favorable states. This hurts everyone. And, as a consumer I am feeling the pinch from our soaring grocery prices, and not just the egg scandal. It's only 5 cents a bottle, but that is how people "nickel and dime" into bankruptcy. Please do not impose this new tax on Oregonians.

Respectfully submitted,
