Committee: Senate Committee On Judiciary  
Measure, Appointment or Topic: SB243

I oppose SB243. This will stretch our already over worked police of Oregon to do an exhaustive investigation on something that is quite frankly moot. Look at this logically, you're creating something to evaluate the possibility of implementing a maybe system. Does this not sound like a gross misuse of not only our valuable tax dollars but also put an unnecessary burden on our overstretched law enforcement resources as well? Please do not let this terrible bill move any further.
