SB 243 will be getting a public hearing tomorrow at 3pm in the Senate Judiciary.

The “work session” for this bill is scheduled for April 3rd in the same committee.

The bill has always been another “bait and switch” by the Democrats.

The original bill “Requires the Department of State Police to study the efficiency of firearm transfer criminal background check.”

We always knew this was bogus with the real intention of the bill coming at the last minute.

As you can see the bill now, one day before the public hearing includes a long list of restrictions, most of which appear in other anti-gun bills that are also soon to be considered.

Once again the Democrats have played the “gut and stuff” game by introducing legislation that bears no resemblance to their actual intentions and then only revealing the real language at the very last minute to deny the public time to analyze and respond to it.

This kind of game is designed to reduce public input as much as possible. The real question is when will the Republicans get tired of watching the people who elected them get treated like serfs and refuse to be part of this circus?

This trampling of our 2nd amendment rights must be stopped. Address mental illness instead of taking away our GOD GIVEN rights!! Republicans - walk out!!!
