Response

Measure, Appointment or Topic: HB3197

Again, the State of Oregon is trying to take the taxpayers money, this time it is to increase the free healthcare coffers. This money will not be spent wisely, it never has.

The state must find and eliminate the waste, fraud and abuse within the healthcare system before asking for any more money. Once they do this, they can do the same with all other taxpayer funded departments and initiatives. The voters need to be heard!
