

Submitter: Sue Craig
On Behalf Of: Interfaith Earthkeepers Eugene Springfield
Committee: House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic: HB3932

As an organization of People of Faith, we are very supportive of any action to protect Beavers. They are a keystone species, and a very wonderful part of the web of life that we wish to support in every way. Please pass this Bill. It will help our very serious problems with our water, especially in Eastern Oregon
Thanks for all your efforts for our earth.
