To The Senate Committee on Rules,

I am an educator and a member of Eugene-Springfield Interfaith Earthkeepers. I am writing to express my strong support for SJR 28, the proposed amendment to the Oregon Constitution that would establish the fundamental right of all Oregonians to a clean, safe, and healthy environment. I believe it is our collective responsibility to protect our air, water, and natural resources for present and future generations. Enshrining this right in our state constitution will ensure that environmental protection is a legally recognized and enforceable right.

Thank you for your time and consideration.

Sincerely,

Britni Cacan
