SB243

This bill violates my 2nd amendment rights as a law abiding, tax paying citizen. This will only limit the law abiding citizen from protecting his family and property, while criminals don't follow laws and criminals will reek more havoc than they already are. Being a CCL holder, I should be able to legally carry anywhere the law already allows, with no more restrictions. Oregon already has one of the strictest gun laws in our nation, don't make it harder for law abiding citizens to lawfully exercise their second amendment rights!
