Measure, Appointment or Topic: SB243

I support this bill because I am concerned for the safety of students at their schools and for all Oregonians in all gathering spaces, public and private.

I support raising the age to buy assault weapons to 21, because I know that 18-20 year-olds commit a disproportionate number of gun related homicides.

I support this bill because I believe those posing a danger to themselves or others should be given time to cool off before obtaining a weapon.
