Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB243

None of these new firearms restrictions will do anything to make Oregonians safer. These new unconstitutional laws are nothing but a burden to law abiding gun owners and do nothing to actually stop criminals. Additionally the amount of funding it would take to support these new regulations would be an astronomical cost to Oregon tax payers. Oregonians do not want any of this and we are tired of having our rights threatened by bills that are clearly unconstitutional.
