Measure, Appointment or Topic: SB243

SB 243 is an incoherent grab bag of unconstitutional firearm restrictions that serve no purpose other than to try to stamp out firearm culture within our state. It's so poorly written, Floyd, that the definitions of "rapid fire activators" won't touch the majority of such devices on the market. Floyd, has a "rapid fire activator" ever been used to commit a crime in Oregon? Floyd, how about you do something useful for once and write a bill to create term limits for state representatives?
