

Submitter: Kathleen Boylan

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or Topic: HB3932

I am writing to express my strong support for the House Bill 3932. Beavers provide many benefits to streams including flood control, lowering sediment levels, increasing late summer flows, improved riparian and wetland zones, improved salmon, and other fish habitat, improved bird and wildlife habitat etc. etc. This is all done for free as opposed to paying agencies and other entities to do the work.

Respectfully,
Kathleen boylan
