

Submitter: Michelle Lequin

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB80

Large scale factory farms introduce a variety of pollutants and toxic substances into our air and water. Oregon's beautiful spaces, including the entire Columbia River Gorge, deserve to be protected from the type of waste and pollution that factory farms produce. Holding companies that produce these problems accountable for their actions usually results in conflict, and the need for government agencies, businesses and individuals to engage in costly mitigation efforts and legal actions. Please resist factory farm operations in Oregon.
