

Submitter: Susan Morse

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB301

Our family is an active recreational user of the Willamette River and strongly support Senate Bill 301. Pleasure boats have been unfairly targeted because of unused ballast weight and this targets and prohibits us from tubing and wake boarding responsibly on the river. Please support all responsible boaters on the Willamette not just fishing boats!

Respectfully,

Susan Morse
