

Submitter: Anne-Marie Eklund

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SJR28

Please vote YES for SJR 28 to amend the constitution to establish the fundamental right to a clean, safe, and healthy environment. We need this amendment now more than ever, and we owe it to our children and grandchildren to leave them an environment that is clean and livable. Climate change is an existential threat to our future, and scientists have said that we are living in a mass extinction event globally. We need to prioritize actions to save our environment for our children. Without clean air, clean water, and biodiverse ecosystems, human health and human economies are adversely affected. It is time that we realize that we are all interconnected. The time to act is now. We need to safeguard the future with this amendment. Please support SJR 28 by voting YES.
