

Submitter:

Duane Dungannon

On Behalf Of:

Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB243

Dear committee members: If our government can put a firearm in the hands of a 19-year-old and send him or her to fight for their country, as an adult of legal age, they should be able to purchase and carry one to hunt or protect their dwelling. Please listen to the testimony about the unintended impacts on hunting and hunter education training.

Please understand what you're legislating, and let's not do the wrong things for the sake of appearing to do something. Thank you. -Duane Dungannon, Central Point
