

Submitter: Dallas Oja

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB243

The legislation continues to attack the material object instead of ever looking at the root cause. We have done nothing in Oregon to fix our severe drug and mental health crisis. Let's work together to fix problems like that, before we strip the rights of law abiding citizens.

The 2nd amendment is for me to protect myself. Criminals don't care about your laws, only thing this will affect is the ones that have moral and ethical standards.
