SB243

I oppose SB 243 because it infringes upon the 2nd amendment rights of the law-abiding citizens of Oregon. Among other things, it would put in place laws that delay and inhibit a lawful citizen's right to defend themselves. By making more "gun-free zones", it ensures that criminals and mass-shooters have even more places where they can commit crimes unopposed by their victims. I urge the legislators to stop passing laws that criminalize the citizens of Oregon who just want to protect themselves and their families.
