

Submitter: Chrissy Bernard
On Behalf Of:
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or
Topic: SB80

I am a human being.

My needs are few, basically. They include good water, good natural food, good, clean air to breathe. These are simply the core physical needs a human like me requires for well-being.

We do ourselves no good at all by warping the natural systems of diversity and balance which create imbalance and ill health.

We all suffer if our environment is polluted- all for profit.
It's ironic and simplistic to continue destructive practices!
