SB243

This bill should be dead upon arrival due to no financial impact statement and being unconstitutional. Failure to understand how the current system works should not mean law abiding citizens lose their constitutional rights. If you're looking at this bill face value and supporting it please take the time to research it and understand the impact this could have on our state as a whole.

Sadly our governing system takes multiple bills and compiles them into one and gives it an attractive title. This tactic is misleading and is an effort to pursued many into a supporting role. I urge all to dive deep into the details before making your decision.

Thanks
