It is with a great amount of disappointment that I have to submit this testimony. We already have a background check system in place that works. When it is funded, and when there is no agenda to make sure that it doesn't work, which we have run into before. With back logs that are beyond belief ,luckily now things are a little better most of the time. This bill along with the others that are being pushed through against the will of law abiding citizens will do nothing to stop crime because criminals do not go through any of these steps to get their guns.

And it is amazing to me that with all the things going wrong with Oregon all of the tragedies, the lack of money, homelessness, mental illness, drug addiction, drugs on our street, illegal imigrants that there would be a continued onslot of laws focused on constitutionally protected citizens who are lawful and contribute to our society every single day.
