Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB243

the gun rights of law abiding citizens should in no way be infringed.

It is not those who follow the law that you should be worried about, it's those who break the law!

There is no excuse for any type of gun restrictions for law abiding Oregonians, the criminal is going to get a gun or other weapon no matter what.

All these restrictions do is penalize law abiding citizens and don't address the the law breakers.

Spend more effort arresting drug dealers and other criminals and leave honest gun owners alone!
