As a concealed carry permit holder I strongly oppose SB 243. I have been previously vetted and attended mandatory firearm safety requirements. A 72 hour wait period for me to purchase a firearm serves society no useful purpose. Current background checks provide adequate information to identify potentially dangerous persons from obtaining firearms. Restrictions on auto-repeating firearms, such as those used by waterfowl hunters, again does nothing to enhance society's safety. . Under age 21 regulations negatively and unnecessarily impact active and well trained military personnel.

There may be useful firearm regulations that could indeed enhance public safety but HB 243 IS NOT ONE OF THEM. I strongly urge a NO VOTE.

Respectfully submitted,
