

Submitter: Daniel Beebe

On Behalf Of:

Committee: House Committee On Labor and Workplace Standards

Measure, Appointment or Topic: HB3374

Opposing this measure. Despite superior clinical training in neuromuscular conditions. Doctors of Chiropractic have been systemically discriminated by the state for about the last 35 years.

Saif corporation has aggressively pursued actions designed to limit Chiropractic care, which has proven, time and again, to be more effective than other professions at resolving and minimizing workers injuries. All the while being less costly.

By limiting the number of Chiropractic physicians on MCO panels, SAIF effectively denies care to thousands of patients shipping them to other professions. This type of behavior exhibits the same qualities that were once part of overt racial discrimination in this country just a change in the name of minority versus Chiropractor. Absolutely shameful.
