Committee: House Committee On Housing and Homelessness

Measure, Appointment or Topic: HB2316

These are our private lands and we do not want to ruin what is left of Central Oregon to housing. We have or had an abundance of wildlife, of which has been totally disrupted with all the building and traffic. Our roads and infrastructure was not made for this many people. We do not need to take our private lands and turn them in to housing. The UGB was put in place for a reason. If anything, this should be put to the citizens of Oregon to vote on. We are tired of not having a say in what is happening to our state and it is being ruined by the left! Please, do not ruin our beautiful Central Oregon!
