SB243

To whom it may concern,

Another bill proposed to take away the rights of responsible gun owners. I personally don't see anything in this bill that would stop crime . Only more unconstitutional gun grabbing by democratic politicians. I propose that you work on punishment for crimes instead of, once again going after responsible gun owners. i oppose this law and any like it and vow to vote to remove all of those that hold a public office and keep pushing this down our throat
