

Submitter:	Gregory Gregg
On Behalf Of:	Gregg family
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	SB80

In Salem and surrounding areas we are subject to algal blooms causing periods of interruption of water service, when we become dependent on well water. Other areas are completely dependent on groundwater sources. Large sources of potential groundwater contamination cannot be permitted to be knowingly established. As a matter of public safety, I urge you to restrict factory farms in any area that serves as a source of potable water.
