Measure, Appointment or Topic: HB2141

I am writing to express my support of HB 2141 relating to voluntary registration for Commercial Interior Designers. While I don't have a design background, I've worked closely with Commercial Interior Designers for the past 12 years and feel that their extensive training and formidable skills should be fully recognized by the state of Oregon. As the owner of my own small business - a furniture rep group - I am passionate about removing barriers to small business owners, women-led enterprises and sole practitioners. HB2141 would allow these individuals to work independently and bid on projects that require a registered design professional but are under the exempt category from the practice of Architecture which is crucial for their growth and success.

Please vote yes on HB 2141.

Thank you,

Victoria Pascoe
