

Submitter: Michael Sears

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or
Topic: HB3940

Greetings:

I Oppose this bill and any other product taxation.

The is a sales tax bill placed on a product at point of sale, aiming solve a funding problem; however popular the issue may be, funds can be re-allocated as needed. There is little effort into making our state government efficient.

Thank you
