

Submitter: Brian Lamson

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB301

I was in one of those boats that was capsized. We were unfortunately still in the water as the wake boat approached towing three kids. We tried to paddle and get some momentum going so that we could hit the first wake head on, that probably would not have mattered, because the size of the wakes. I might add that type of boat was not supposed to be in that area. We were shaken and stunned that the boat did not stop.
