Measure, Appointment or Topic: SB243

Nothing you are focused on will reduce crime. Stop trying to criminalize honest tax paying citizens. Stop hurting small businesses and sporting goods stores! Stop making it difficult for people to defend their families and homes. It's a disgrace that all your efforts focus on citizens and not criminals that are caught then released everyday to harm more people! I see the jail logs and know how the revolving door is non stop. Start representing all of Oregon instead of your special interest cronies. We are tired of the lopsided bs.
