

Submitter: John Steen

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB243

I'm afraid the authors of this bill do not understand the damage this would do to youth hunter safety programs, youth hunting seasons, waterfowl hunting, upland bird hunting and big game hunting (where semi-automatic shotguns and rifles are in use by a majority of hunters I run into during the various seasons). School competitive shooting teams would be handicapped as well. The biggest problem, if this bill is passed, is the inconvenience it presents for law abiding citizens while challenges work their way through the courts only to end up being declared a violation of the Second Amendment.
