

Oregon Senate
Committee on Judiciary
SB243

Hearing March 27, 2025

3:00 PM

Members of the Committee:

I find this bill to be anything but transparent. There is no way the reader of this measure could determine it's implications without extensive research. It should be voted down because it is deceitful, if for no other reason.

I have been a responsible gun owner who shoots at least twice/week and have been doing so for over 50 years. I have trained many youths to safely handle firearms. None of them have become criminals. This bill assumes all of us are criminals and prevents young safe shooters from acquiring a gun to accompany be bird hunting.

Where is the evidence that any of these measures will decrease the crime rate when over 90% of guns used in crimes are obtained illegally? Please quit penalizing law-abiding citizens!

This bill once again will not decrease crime. Enforcing current laws will.

Respectfully,

Robert Bullard

Hillsboro, OR
