Trevor Hetb

On Behalf Of:

Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB243

I am writing this testimony in complete OPPOSITION of this bill. This bill along with all the other bills that are related to firearms this session have no consequences for criminals. This is an attack on law abiding citizens. The other issues with the bills is the amount of money this is going to cost tax payers state wide. What is the financial impact statement of all these bills? I am hoping common sense prevails and these bills all go away. This sate has many more problems than attacking law abiding citizens.
