Re: Support SB 535

Dear Chairwoman Patterson, Vice-Chairman Hayden and Esteemed Members of the Committee On Health Care,

On behalf of FORCE (Facing Our Risk of Cancer Empowered), a national nonprofit organization that represents families facing hereditary cancers, and our Oregon constituents, I am writing to express strong support for SB 535. This bill would facilitate fertility services in Oregon for those individuals dealing with a medical diagnosis or treatment that may impair their ability to have children.

Patients dealing with a frightening diagnosis—who are about to begin lifesaving, but potentially sterilizing treatments—have to make urgent, difficult decisions about their future hopes of becoming a parent. Similarly, women with an inherited genetic mutation predisposing them to ovarian cancer are advised to undergo surgery to remove their ovaries and fallopian tubes to avoid this deadly disease. For these individuals, fertility preservation is the only means available to protect their reproductive capability and may be the only viable option to build a biological family. Without insurance coverage for fertility services, patients cannot afford these procedures and fees and will face permanent, involuntary infertility. Fortunately, this legislation would give most Oregon state residents options for those confronting this dilemma, by ensuring that they have insurance coverage for effective, evidence-based options for preserving their fertility before their surgery or initiation of cancer therapy and pursuing future interventions to realize their dream of having children. These fertility preservation and treatments are consistent with national guidelines issued by leading medical associations, including the American Society of Clinical Oncology (ASCO) and the American Society for Reproductive Medicine (ASRM).

FORCE has a strong presence throughout Oregon. Members of our community facing cancer are desperate for a glimmer of hope to help them preserve the option of having children. We respectfully ask you to help patients facing infertility by supporting SB 535.

Thank you for your consideration. Please don't hesitate to contact me should you have any questions.

Sincerely,

Lisa Peabody
