

Submitter: Gary Clarida

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB1187

Committee Members

It is a common and accepted business practice to privatize profits and externalize costs wherever possible. This practice tends create burdens on people who have no say in their creation. Typically they fall the hardest on those with the fewest resources to deal with them. Creating a structure to address this inequity is long overdue. This is made more apparent by the frequency severity of natural disasters we are seeing all over the planet. We need SB1187 as a first step in addressing the problems we are facing. Thank You for your consideration.
