SB243

I feel that this is the wrong approach to meet said goals of this bill. The State has an open door policy for anybody from around the world and wants us unable to defend ourselves, family and property . There are many homeless people, mental health needs people, and drug addicted people that pose threats that may need to be defended against. Instead of pursuing needless, redundant, and ineffective bills maybe the State government could work on fixing the problems we have rather than making a problem for a solution.
