

Submitter: Casey McClellan

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB2803

I have farmed in Umatilla County for 40 plus years and been involved in Walla Walla Basin water issues for many years, personally and as a member of the Oregon Wine Association. I would like to submit testimony supporting the Governor's HB 2803, enhancing funding for the OWRD. For many years, processing times for water right documents have been very lengthy. These long delays are economically hurtful for our state's farming community. It can be years and years before a final permit or Certificate is issued. If the fee increases allow the OWRD to hire additional water application review personnel, I am strongly in support of HB2803. We need faster processing times, and that will only come if the OWRD has more help to get the job done.

thank you for your consideration of my testimony.

Sincerely,

Casey McClellan
