I strongly oppose this bill, and I'm actually quite horrified that any legislator would think this would be a good idea. Seniors, the disabled, and low income workers are already struggling to stay in their homes and feed themselves. With all the issues we have fighting homelessness in our state already, why would anyone think it was a good idea to pass a law that will create more homelessness? You're already trying to raise fees and taxes on everything under the sun. When will you come up with ideas that will actually benefit your constituents? Isn't that what we elected you to do? Anyone can come up with new taxes and fees. How about you come up with ways to save Oregonians money and make our lives a little easier? Sorry for the rant, but the fact that this bill exists tells me that we have a number of elected legislators that are totally out of touch with their constituents. I appreciate the time you spend at the capital, but DO BETTER, PLEASE! We are struggling out here! I don't know a single Oregonian that would support this!
