I do not understand how this will help the law abiding citizens. All I see is more money out of our pockets, and criminals still being criminals. This is infringement on our constitutional right. This has to stop. Putting multiple small bills off of one the people already voted out, It's ridiculous and in no way helping our State. I use to be proud to be an Oregonian. I love my state but I love my freedom more. Every bill put in about guns is not ment to help stop criminals its only hurting us law abiding citizens. I strongly Oppose this bill it is a waist of time and money.
