

Submitter:	Chris Brumbles
On Behalf Of:	Americans
Committee:	Senate Committee On Judiciary
Measure, Appointment or Topic:	SB243

Frederick Bastiat said that the end of govt is justice and defined justice as the absence of the plunder of our rights. Founders agreed.

All we see from these illegal bills is plunder of our rights as well as making society a much more dangerous place. We have no justice in Oregon anymore as our elected employees in the demon rat party push ideology on their quest for total control and a one party system. They release murderers and do everything they can to attack by disarming and under arming law abiding citizens to leave them disarmed and helpless. That dog won't hunt. Every gun law is illegal, and anyone with sanity knows that criminals will not obey these laws and that more guns equals less crime you morons.

Oregonians voices are continuously ignored and revolution seems inevitable being pushed by you, the would be tyrants. We are sick of the plunder and we will cling to our guns as you violate our RIGHTS and turn us all into criminals under your fake and illegal laws. You are not the arbiter of the constitution and neither is the Appeals court ; the constitution is and the people are. You are all bound by the Bill of Rights which does not give us rights, but chains you. Those who write these laws or vote for them have perjured their Oath of office and are illegitimate. We will not comply and we do not consent to your imaginary authority. Write your ridiculous and unconstitutional laws and watch the black market explode. We are Americans with God given RIGHTS that are antecedent to govt by thousands of years and we will not allow you to take what you did not give and have no authority to take.

Desiderius Erasmus said that in the land of the blind the one eyed man is king... In Oregon that would be in the land of insanity the lunatics believe we elected them kings...we don't and you aren't.

God created us and we created you, that is the pecking order, learn it soon bc I don't want what is coming. Demon-rats don't seem to get that we will only be pushed so far, and we will never allow you to disarm us bc we know that the worst crimes are always committed by government hence the reason for these bills in the first place. I urge the marxist party in charge of Salem to reflect on your idiocy and consider actually doing your job which is to protect our rights, as for the weak knee'd Republicans you need to walk out and stay out until you kill all of these chimeric wet dreams of the left and stay out until the danger has passed and you are guaranteed to have your absences forgiven. We will not comply.
