I am opposed to this bill. The mandatory waiting is more additional day as what is already happening with background checks currently. Having a concealed carry is something that we should have the right to carry when and where we want unless on federal grounds. This also to protect myself and loved ones in defense if need when a gun ends up in the hands of those that have gotten them of the black market. The restriction and having to be 21 to be in procession of firearms is the most ridiculous thing I have ever heard of doing. I started hunting at a young age and have always been responsible and used caution when doing so. If they want people to be 21 then that means let's have them wait till they are 21 to joint the military and see who will sign of to defend our country and freedom. Be all the ones against it still want to have freedom and protection would change theirs minds. The military is already hurting for ones to join and if they can be trusted to defend then it shouldn't be an issue to process.
